

LIBERTY
(GIULIA BARBUI)

Look there's a poetry in my heart
It's like a butterfly
Looks like a fire in my veins
she wants to fly away

CHORUS:

You are my goal
You are my light
You are my fire
You show me how to reach the right direction to your heart
I have a soul
To give some love
Have a desire
You and me always on this road up to the sky

The past you can remember
Future is in front of us
We live a present full of love
Two bodies and one soul

CHORUS

You are my goal
You are my light
You are my fire
You show me how to reach the right direction to your heart
I have a soul
To give some love
Have a desire
You and me always on this road up to the sky

(ASSOLO)

CHORUS

You are my goal
You are my light
You are my fire
You show me how to reach the right direction to your heart
I have a soul
To give some love
Have a desire
You and me always on this road up to the sky
